REASONS FOR ALLOWANCE

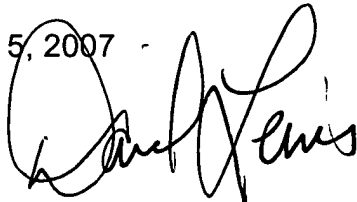

1. Claims 27-66 are allowed over the prior art of record.
2. Claims 1-26 have been cancelled.
3. The following is an examiner's statement of reasons for allowance: **The claimed priority documents were received. The IDS filed on 8/10/2007 has been considered. The Drawings filed on 4/5/2007 are approved.** The Applicant arguments filed on 10/23/2006 with respect to claims 27, 28, 30-41, 44, 45, and 47-66 are persuasive. The feature of independent claims 27, 42, 51, 54, 59, 61, 63, and 64 directed towards allowable subject matter is the quiescent period, in which all the scanning signal lines are set in non-scanning state, which is set to be longer than a scanning period required for scanning each scanning signal line of a screen at least one time. The prior art of record, Yamazaki, teaches of said feature for a portion of the screen however fails to teach of the above mentioned feature as prescribed for the period longer than a scanning period required for the entire screen to be displayed at least one time. The feature of independent claim 29 directed towards allowable subject matter is the detail of the non scanning period including the quiescent period selected among a plurality of non-scanning periods. The feature of independent claim 46 directed towards allowable subject matter is the specific pixel voltage holding ratio. Additionally the feature of independent claim 42 directed towards allowable subject matter is the quiescent period detail. Yamazaki fails to teach of said feature under the prescribe conditions. Therefore said features of claims 27-66 in combination with the other limitations of the claims make them allowable over the prior art of record.
